FCT Voting and Prioritization Results

Ranking details: The FCT had 23 voting members; with 22 ballots cast (one ballot was not returned). Each voting member ranked the recommendations on a scale of 5 (highest priority) to 1 (lowest priority), with the option of ranking any or all items with a 0 (or “abstain”). An “abstain” vote indicates a member could not endorse that specific recommendation. Rankings were determined by the aggregated values divided by the number of non-abstaining votes.
