B Day

Good Morning Arrowhead!

Today, we'd like to recognize Elizabeth Blackwell, the first woman to receive a medical degree. She persevered and graduated from Geneva Medical College in New York in 1849. After she graduated, she continued to practice medicine and aid other women who sought to do the same.

Our last Math Meet of the year has been rescheduled to Thursday, March 9th at Brookfield East High School. Please sign up with your Math teacher or email Mrs Ley. We will meet in the front lobby of North Campus at 2:45. Treats will be provided.
