WHEN FINISHED, TO PRESENT:

To see node live

- In preview mode, select *get url*
- “Copied url to clipboard” will appear under link
- Navigate to *home* screen
- Select *see it live* and view in full screen

Or *edit details* and publish to the gallery for all to see.

DESIGN IDEAS TO KEEP IN MIND:

Goal: Should be fun to look at, easy to navigate, and complete with examples and explanations.

- Do you have the content of the main nodes adequately placed?
- Do you use as many sub-categories as possible?
- Do you have connectors?
- Do you vary the size of the print?
- Are you using colored text?
- Have you uploaded pictures?
- Are you thinking about your audience when you create your nodes?
- Do you include any extra ideas?
