July, 2017

Dear Parent,

The purpose of this letter is to highlight our educational technology at Arrowhead by mentioning new and continuing programs. Please see the *Arrowhead Advisor* for monthly technology updates.

This is our fourth year of technology-rich learning environments (TLE) for all of our students. Students are expected to **bring their own laptops or Chromebooks** in working order to school each day. Accommodations will be made for those families who qualify for free and reduced lunch. More information on TLE can be found under PARENT RESOURCES.

Arrowhead students will use a **course management system called Canvas**. Teachers will be using Canvas at a variety of levels with the goal of this system becoming the hub for all Arrowhead coursework. Students will login using their computer/wireless logins.

The **RESOURCES** area of the **Arrowhead website** provides targeted information for parents and students. Many questions can be answered by going to this area of the website.

Freshmen and new students will be given a login and password for network access. This login will work for all Arrowhead accounts (Canvas, wireless, LaunchPad, etc.). Sophomores, juniors, and seniors will use last year's login information for all Arrowhead accounts. Student's login information will not change from year to year, but, be aware, **all accounts will be deleted after graduation**. If you have login issues, please go to either campus library for assistance.

Arrowhead's Family Access through Skyward student information system allows guardians to view their students' grades and attendance records. Using this system, guardians can make lunch payments, pay other school fees, and complete registration. Students and guardians have separate Family Access accounts. **Please use your GUARDIAN login for online registration**. For help, see the Arrowhead webpage, email fa@arrowheadschoools.org, or call 262-369-3612 ext. 4004.

Educational technology should deepen understanding, enhance instruction, and best prepare students for their future lives. As always, we welcome parent and student feedback.

Sincerely,

Donna Smith
Director of Library Media & Technology
