“B” Day

Good Morning Arrowhead!

1. Students, there is a large collection of lost water bottles on the Lost and Found Table outside of the office. Check it out. Maybe you'll find yours there.
2. A reminder to dress for the winter weather, especially if you are traveling between schools and heading to Door A.
3. Finally, do you have an idea about what is the deadliest creature on Earth? It is the mosquito. They cause about 750,000 deaths per year by transmitting viruses from person to person. While dogs kept as pets cause about 35,000 deaths annually.

Have a great Friday and a terrific weekend!
