POLICY: 327. CHALLENGE ROPES COURSE POLICY AND PROCEDURES MANUAL

POLICY: 328. PART-TIME OPEN ENROLLMENT**

This provision is intended to implement Wisconsin law in respect to the Part-time Open Enrollment program as established by statute. All provisions set forth hereunder should be read and interpreted to precisely reflect the minimum standards required under state law. In no event should these provisions be interpreted to grant rights above and beyond those mandated by the authorizing statutes for the Part-time Open Enrollment program.

A high school student enrolled in a public school may attend school in a nonresident public school district on a part-time basis, for the purpose of taking up to two courses at a time. (WI Stats. 118.52). Private school students and home-based private education program students cannot participate in the Part-time Open Enrollment program. Separate Wisconsin statutes (WI Stats. 118.145(4) and 118.53) allow these students to attend a public school on a part-time basis under specific circumstances.

Resident/Full-time Enrolled Students Attending Individual Courses in Other High Schools

Any student enrolled full-time in the District may apply to take a course, or up to two courses at any one time, in another public high school. This includes enrolled resident students and full-time open enrollment students. Students enrolled in the District through Wisconsin's full-time Open Enrollment program can apply to attend one or two courses in the student's resident district or in a third district; the nonresident district the student is attending full-time is considered the district of attendance (resident district) for part-time enrollment purposes, only.

The District shall deny a student's application to attend a course(s) in another public high school under the Part-time Open Enrollment program if:

1. The student's application was not submitted in the manner and within the time limits established by state law and District policy; or
2. The course conflicts with the student's individualized education program (IEP). Under the Individuals with Disabilities Education Act (IDEA), an IEP meeting can be held at the discretion of parents or school personnel to review and alter a student's IEP; or
3. The course would impose an undue financial burden on the District, considering the District's total economic circumstances as further described by law; or
4. The student's application is not approved by both the District and the nonresident district; or
5. If a summer school course, it is not eligible to be counted for state aid purposes.

The director of learning shall be responsible for reviewing all course applications received from District students and accepting or denying them in accordance with the criteria outlined above and established in District Procedures 390.1.

The District shall be responsible for paying tuition to the nonresident district for each resident student attending a course in the nonresident school district in an amount equal to the cost of providing the course to the student. Tuition shall be calculated in a manner as determined by the Department of Public Instruction (DPI). Other incidental costs, such as classroom supplies, field trip fees, etc., required for the course are at the expense of the student or student's parent/guardian.

**ARROWHEAD UNION HIGH SCHOOL DISTRICT
SERIES 300 – INSTRUCTION**

Nonresident Students Attending Individual Courses in the District

Nonresident public school students residing within the State of Wisconsin may apply to take a course, or up to two courses at a time, in the District under the Part-time Open Enrollment program in accordance with state law and established procedures. The District will deny any application that is not submitted in the manner and within the time limits established under state law and applicable District procedures.

The director of learning shall be responsible for reviewing all course applications, which includes a release of records, received from nonresident students under this policy and for accepting or denying them in accordance with the same criteria that is used for making course-related eligibility decisions for students who are District residents (e.g., space availability in the course, meeting course prerequisites, academic requirements, conduct-related requirements, etc.). Preference shall, however, be given for attendance in a course to any otherwise-eligible student whose primary school enrollment and attendance is within the public schools of the District and to residents of the District who are otherwise entitled to apply to take the course under state law or under any Board policy. If the District receives more nonresident student applications to attend a course than there are spaces available, determination of which students to accept shall be made on a random basis in accordance with established procedures.

The District shall provide equal opportunities for students with disabilities to attend courses in the District under the Part-time Open Enrollment program. However, if a question arises as to possible course accommodations or modifications for a student with a disability, or as to the District's ability to implement the student's IEP, the District shall contact the student's parent or guardian and involve representatives of the school(s) responsible for the student's current IEP to the extent necessary and appropriate.

Nonresident students attending courses in the District will have all of the rights and privileges of similarly-situated resident students and will be subject to the same policies and rules as similarly-situated resident students, except that the District shall not charge to or receive from the student any tuition payment other than the payment that the student's resident school district makes to the District pursuant to state law.

Provisions Applicable to All Students Seeking to Attend Courses under this Policy

1. Transportation to and from any course(s) taken under this policy shall be the sole responsibility of the student or student's parent or guardian, unless state or federal law otherwise requires the student's resident school district or the educational institution that is offering the course to provide transportation.
2. If the resident or nonresident school board/district rejects an application for part-time open enrollment, the student's parent or guardian may appeal the decision to the DPI within 30 days after the decision. The appeal may be in the form of a letter or legal brief, and shall state (1) the decision being appealed, (2) the specific reasons for the appeal, including why the appellant believes the school district's decision was arbitrary or unreasonable, and (3) any other facts relevant to the appeal. State law requires the DPI to affirm the school board's/district's decision unless it finds the decision is arbitrary or unreasonable.
