Reg: US News and World Report Top High Schools

US News & World Report recently released their 2023-24 rankings of the best high schools across the nation. We are proud to announce that Arrowhead High School ranked 8th (of 574) in Wisconsin and 518th (of over 25,000 schools) nationally! AHS improved seven spots from a ranking of 15th in Wisconsin in 2022-23.

The US News evaluates schools academically using six different measures: College Readiness (30%), College Curriculum Breadth (10%), State Assessment Proficiency (20%), State Assessment Performance (20%), Underserved Student Performance (10%), and Graduation Rate (10%). The primary assessments used in Wisconsin include Advanced Placement Exams which take place each spring, and the statewide ACT test administered to all Wisconsin public school students in March each year.

Superintendent Conrad Farner shared, “It is rewarding to know that the incredible efforts of our students, parents and staff are producing great results. The commitment to critical reflection and continuous improvement allows our students every opportunity to own their learning, which is how they become the successful, self-sufficient, compassionate citizens we need as future leaders.”

“Being ranked in the top 10 of high schools in Wisconsin is an incredible honor and a well-deserved recognition for the students, staff, and parents of Arrowhead High School. These rankings never serve as our focus, but are an outcome of the tremendous dedication, work, and support of our entire school community.” Adam Kurth, High School Principal.

Arrowhead remains committed to providing the most challenging and relevant learning experiences for our students and looks forward to continuing our efforts as one of the top schools in the state.
