

Dear Parents,

We will be conducting a virtual Open House this year starting on the evening of Monday, September 14. Teachers will be posting a video onto their CANVAS page explaining what your children can expect regarding homework, assessment practices, and other pertinent information so you will have an understanding of what is happening in the classroom. We ask that you either watch the video with your child or have them give you their CANVAS access code so you can watch it without them. If you have questions after viewing the video, you are encouraged to email the teacher to get answers. I know this is not an ideal situation, but we should be able to provide the necessary information using this format.

Thank You,
Gregg
